

CACI - the most advanced non-surgical treatment system

The Award Winning CACI treatment is now available HERE!

Featured on "Ten years younger" and Won against surgery and Botox!...

How does it work?

Our body has its own electrical field and each of our muscles have an electrical charge. As we get older, the charge in these muscles loses power and tone, resulting in sagging and wrinkles.

The CACI uses a unique micro-current to recharge and correct the muscles. This restores muscle tone and increases collagen and elastin production.

- Lifts facial and body muscles
- Softens lines and wrinkles
- Reduces puffiness and dark shadows
- Contours cheeks
- Lifts jowl area
- Retextures your skin
- Increases cell energy by **500%**
- Increases collagen by **60%**
- Increases elasticity by **73%**
- Increases absorption levels by **30-40%** meaning you'll have better results with the products you are using!

How many treatments do I need?

For maximum results a course of treatments is recommended followed by a maintenance treatment, every 4-6 weeks!
